FACILITIES & INFRASTRUCTURE

Such an environment is extremely enriching for participative learning.

The Library has a rich collection of academic as well as reference books, journals, periodicals, magazines etc to cater to complete needs of students, research scholars as well as teachers. In fact the primary purpose of library is to support curricular and research needs of students.

We have also arranged bus service for students to commute comfortably from various points of the city from morning till evening. In view of safety issues on the road, we strongly advise the students to avail the service of university buses only. All buses are well equipped with safety measures.

The Cafeteria has been designed to create clean environment and hygienic foods at affordable price.

Ragging physical or mental, is a cognizable offence. All students are strongly advised not to indulge in such an inhuman act of cruelty; as responsible citizens, the students are expected to contribute to eradication of this evil from the society completely. If any student is reported to be involved in committing or staging such an offence, he/she will be handled as per UGC rules and guidelines.

VMSU provides a congenial environment for character building, personality development and growth for religious harmony and tolerance towards all life forms. Apart from indoor games, the University provides a wide range of facilities for outdoor sports like, cricket, badminton, lawn tennis etc.

Industrial Collaboration

Quality education cannot be achieved without practical training. The importance of various training under actual circumstances and case studies can be well understood in competitive environment where every enterprise is result oriented and demands output. Various committees constituted by the Govt. from time to time accentuated the need of strong university-industry collaboration.

In order to come up with those expectations and demands of unexpected corporate market, VMSU works in industrial collaboration while bridging the gap between students and job market. This linkage within the different sectors of the corporate world would assist to produce efficient technocrats to the market. The brand and top companies are always craving for efficient professionals where this topology of industrial collaboration that would help VMSU while catering the emerging needs of entrepreneurs. The University will be responsible for not only building and maintaining linkages with various enterprises but also provide unique platform to check and improve the training curriculum of various fields of studies and thereby set new standards of qualifying. The main objectives of Vinayaka Missions Sikkim University industrial collaboration are to:

- i. Establish contacts and linkages with industries/trades/academic faculties and students.
- ii. Enable exchange of information between academicians/universities and industries.
- iii. Review from time to time the training curriculum under various fields to identify the emerging shortcomings and enable students to face challenges in complex environment.
- iv. Encourage campus placement system.
- v. Conduct seminars/symposiums and general meet to raise interaction with corporate experts.

The various organizations/industries that may be recognized and entertained for achieving above mentioned objectives efficiently are categorized as:

- Enterprise including companies from various sectors of business.
- Organizations established under their own statute like Banks.
- NGOs like trusts and societies.

Admission

Students can choose from a variety of courses like Bachelor Of Computer Application, Bachelor Of Business Administration, Bachelor Of Science (Information Technology), Bachelor Of library Science, Master in Library Science, Bachelor Of Arts (Tourism & Hospitality) Bachelor Of Business Administration (Retail Management) and Master in Library Science

Procedure for Admission

- Go through www.vmsuniversity.in while selecting the degree program. If student feel some confusion or need more information about course curriculum then her or she can contact education counselor for the same.
- After selecting the course the students need to visit the University and fill in the form attached with the prospectus.
- The students should submit the form with 8 passport size photographs along with the necessary documents including marks sheets, past academic certificates, birth proof, residence proof and all other needed documents.
- The students should submit the documents to the admission counselor and pay the fees in the accounts section of the University.

Research and Development Cell

The progress of economy is directly linked with the research and development activities carried out by a country. The statement can be well supported with the fact that all the developed countries reserve and contribute a high percentage of their profits for the research and development activities. Nothing is constant in this world and everything that is latest today will become outdated tomorrow.

Vinayaka missions |Sikkim University also understands the value of research and so it has created a centre for

- Enhancing and improving research methodology.
- Establishment and review of the cross disciplinary centre for creating knowledge in new areas.
- Providing support and facility to carry out research with experienced and eminent technicians.
- Promoting strategy based research for improving public services and governance.
- Encouraging the youth towards innovation.

Career Advisory

Career advisory is a department that works to synchronize the needs of corporate world and the students. It is an institutionalized system of advisory services designed to assist students in taking decision on career and educational guidance at different level of education. They understand the needs of the students and clarify their goals while providing precise career advisory. Under this, our career experts and job counselors would provide every information to the students through which they can easily achieved their career goals. How students enroll with their favourite subjects ? How students will get easily accessed by employers? How students prepare as per their career aims? We include career counseling and individual or group counseling focused on the choice of education and careere choice of first job etc.

Vinayaka Missions University career advisory services will help students in the following segments:

- Assistance in how well students can prepare their CV, Job application form, Covering letter and other Corporate/University documents.
- Bring best solution to the students about their study options and exploring career paths for the best suited.
- Guide students how to go through interviews of varied profiles.
- Exploring and finding new jobs that can offer best to our students
- Comprehensive preparation for the selrection process ,recommendations on behavior, stress management, nonverbal communication.
- Formulation of career plans whereby providing assignments and projects to the students.

Approach

Higher education is what follows the Secondary and high school learning. After completing schooling, students need to design their career base while selecting the college and University for their higher education. It is always important for the students to have prospective selection of higher education center whether it is for bachelors, masters or research programs. Thus, to match with dynamic needs of today's youth, Vinayaka missions University has come up with its unique and advantageous platform of higher education. It is one of the Universities located in the hearts of the Himalayas in the North eastern part of India. With the aim of reaching to every section of the society, Vinayaka Missions University introduces rural study programs and weaker section campaign to support equitable education system.

VMSU brings wide range of courses and degree programs that can be easily chosen by varied student population as per their needs and academic plans. One of the unique characteristics of VMSU programs is detailed course curriculum that makes our students perfect in contrast to ever changing corporate world. All these courses are available with latest knowledge and under modular wise, besides these, numbers of research and development programs have also been supported by the University.

The main aim of providing quality education and supporting individual research is to explore new paths and creative knowledge in emerging areas. Vinayaka Missions University offers the best infrastructure where students can easily prepare themselves for their bright future.
